

Washkewicz College of Engineering

ELECTRICAL AND COMPUTER ENGINEERING DEPARTMENT

Lecturer Position at Cleveland State University Electrical Engineering or Computer Science

The Department of Electrical and Computer Engineering at Cleveland State University invites applications for a non-tenure-track lecturer in electrical engineering or computer science. The position begins in August 2015.

Responsibilities include teaching at both the undergraduate and graduate level, student advising, and curriculum development for both lecture and lab courses. The teaching requirement is between 12 and 16 credit hours (four or five courses) per semester. Salary will be commensurate with education and experience. Opportunities for summer teaching with additional compensation might also be available.

After the first year, the position will be annually renewable for five additional years based on satisfactory performance, programmatic needs, and university finances. After a sixth-year review, the lecturer will be eligible for two successive three-year appointments, followed by six-year appointments.

Minimum Qualifications:

- 1) Master's degree in electrical engineering, computer engineering, computer science, or a related field.
- 2) Ability to teach and interact with both undergraduate and graduate students.
- 3) Good skills in computer-based design and analysis tools.
- 4) Hands-on experience in electrical engineering or computer science.

Preferred Qualifications:

- 1) Bachelor's degree in electrical engineering, computer engineering, or computer science (in addition to the minimum qualification of a master's degree).
- 2) Earned doctoral degree in electrical engineering, computer engineering, computer science, or a related field.
- 3) Good communication skills.
- 4) Industrial experience.
- 5) Teaching experience.
- 6) Research experience.

For full consideration, candidates must submit a cover letter, curriculum vitae (including names of at least three professional references), and a statement of interests in teaching, through the Human Resources website: <http://www.csuohio.edu/offices/hrd/employment.html>. Review of applications will begin February 25, 2015. Position remains open until filled.

CSU is a major urban university with partnerships with several industrial corporations and the NASA Glenn Research Center. The Washkewicz College of Engineering traces its roots back to 1923 as Fenn

Washkewicz College of Engineering

ELECTRICAL AND COMPUTER ENGINEERING DEPARTMENT

College and has since maintained its reputation for excellence in engineering education and research. The college was renamed in 2013 to Washkewicz College of Engineering in honor of the transformative gift from Donald and Pamela Washkewicz and the Parker Hannifin Foundation. The Department of Electrical and Computer Engineering offers doctoral and master's degrees and ABET-accredited bachelor's degrees. Faculty areas of expertise include digital systems, controls, power electronics, communications, computer networks, databases, mobile networks and security, software engineering, and embedded systems. Additional information about the department is available at <http://www.csuohio.edu/ece>.

CSU is an AA/EOE committed to nondiscrimination. M/F/D/V encouraged. Offer of employment is contingent on satisfactory completion of the University's verification of credentials and other information required by law and/or University policies or practices, including but not limited to a criminal background check. Hiring is contingent on maintaining existing levels of funding from the state of Ohio.
