## CHMS

This meeting is hosted by the Center for Human-Machine Systems (CHMS).

The Center for Human-Machine Systems is a consortium of Cleveland State University labs with the aim of improving human-machine systems by combining the unique capabilities of the engineered and natural subsystems. The center provides its members a synergistic environment and resources to promote the development of high-quality, well-funded, and high-impact research projects. <http://chms.csuohio.edu/>
