Civil Engineer Employment Opportunity

Job Description:

Successful candidate will work under the direction of a Principal Engineer and will be responsible for completing design of municipal improvements as well as private developments from start to finish. Responsibilities will include municipal infrastructure design, site design, hydraulic and hydrologic calculations, preparation of various studies, cost estimates and specifications, project management, inspection, research and interaction with clients, architects, surveyors, contractors and project team members. The engineer will also be required to draft a majority of his/her own work in AutoCAD.

Required Qualifications:

- Bachelor of Science in Civil Engineering (B.S.C.E.);
- Engineer Intern certification;
- Demonstrated proficiency in AutoDesk Civil3D/Map3D and AutoCad;
- Strong technical skill set including MS Office;
- Strong listening, writing, verbal communication and public speaking skills;
- Valid Driver's License.

Preferred Qualifications:

- 2-3 years of related work experience;
- Proficiency in various engineering modeling software;
- Experience in Land Surveying;
- Proven work history, strong work ethic, mentoring, and team-player attitude;
- Additional licenses, certifications or training in Civil Engineering or related fields;
- Desire to continue professional development including P.E. license and other certifications.

Job Type: Full-time
