

2022-23 FPO Asphalt Scholarships Notice

Flexible Pavements of Ohio is pleased to announce its asphalt scholarship program for the 2022-23 academic year. The period for submitting on-line applications will be open from Wednesday, December 1, 2021 through Monday, January 31, 2022.

Procedures are similar to those used in past years.

The eligibility and application requirements differ slightly, depending upon whether the student is an undergraduate or graduate student. Please see the explanation below.

For an undergraduate student to be eligible for a scholarship, he or she must agree to take a course dedicated to asphalt pavement technology and be a citizen of the USA. The course must be completed prior to graduation. As such, applications are being solicited from undergraduate students who are presently sophomores or juniors and who will be, in the 2022-23 academic year, juniors or seniors in bachelors of civil engineering, construction management or construction engineering programs at universities in Ohio. Acceptable courses are those covering the essential elements of asphalt pavement technology; or, or as an alternative, an available on-line course to fulfill the course requirement. Undergraduate students must re-apply annually, but are eligible to receive a scholarship for up to two years.

In the case of graduate students, their major field of study must be related to asphalt pavement technology and they must be a citizen of the USA. An eligible graduate student will be eligible to apply for additional annual scholarships during their graduate academic career. Graduate students should apply using the on-line application and use the comment section to indicate their graduate student status and the nature of their curriculum and/or research as it relates to asphalt pavement technology. Graduate students must have a letter of recommendation submitted by their faculty adviser.

For the 2022-23 academic year The FPO Board of Directors has authorized a three-fold increase in funding for scholarships so as to increase the number and value of scholarships awarded. The actual amount will be determined once year end investment results are known. In 2021 the scholarship amounts awarded were \$2000 and \$2500. Complete eligibility requirements are listed on the Flexible Pavements of Ohio website on the scholarship page at:

<https://www.flexiblepavements.org/eligibility>

Applications will be accepted from December 1, 2021 until January 31, 2022. Applications must be made electronically using the on-line registration form at:

<https://www.flexiblepavements.org/online-applications>

We appreciate and thank you for your participation in this effort by making an asphalt technology course available to your students and hope that you will make your eligible students aware of this scholarship opportunity. We consider it a critical element of our effort to develop an engineering community educated in asphalt technology for the future.

If there is any assistance we can provide, please feel free to contact us.

Sincerely,
W.H. Fair, PE for
Andrew Gall, President and Executive Director
