
Electrical Engineering and Computer Science Graduate Student Orientation

**Cleveland State University
January 30, 2009**

Schedule

- 12:15-12:30 Welcome and Introduction
Dr. Fuqin Xiong, Department Chair
- 12:30-12:45 Degree requirements
Dr. Ana Stankovic and Dr. Yongjian Fu
- 12:45-01:00 Academic matters
Dr. Chansu Yu
- 01:00-01:15 Research
Dr. Nigamanth Sridhar
- 01:15-01:30 Research and Plagiarism
Dr. Dan Simon
- 01:30-??? Student Discussion

Welcome and Introduction

Dr. Fuqin Xiong, Department Chair
Department of Electrical Engineering and Computer
Science

Welcome to the EECES Department!

- Washkewicz College of Engineering, 1923
- Cleveland State University, 1964
 - College of Business
 - College of Education
 - College of Engineering
 - College of Liberal Arts and Social Sciences
 - College of Science
 - College of Urban Affairs
 - College of Law

Welcome to the EECES Department!

- Washkewicz College of Engineering
 - Chemical and Biomedical Engineering
 - Civil and Environmental Engineering
 - Electrical Engineering and Computer Science
 - Engineering Technology
 - Industrial and Manufacturing Engineering
 - Mechanical Engineering

Welcome to the EECES Department!

- Electrical Engineering and Computer Science
 - Largest of Washkewicz College's six departments
 - Two undergraduate degree programs
 - Bachelor of Electrical Engineering
 - Bachelor of Computer Engineering
 - Two master's degree programs
 - MS in Electrical Engineering
 - Electrical engineering emphasis
 - Computer engineering emphasis
 - MS in Software Engineering
- College-wide doctoral degree

Welcome to the EECS Department!

- Traditional areas of EECS
 - Communications
 - Controls
 - Power electronics and power systems
 - Digital systems
- Recent additions to EECS courses and research
 - Computer engineering
 - Software engineering
 - MEMs
 - Sensors
- Nine research laboratories
- Center for Research in Electronics and Aerospace Technology
- Wright Center for Sensor Systems Engineering

Welcome to the EECES Department!

- Blend of practical experience and academic research
 - Collaborations with industry and NASA
- Diverse faculty and students
 - Ohio
 - National
 - International
- Career opportunities
 - Rockwell Automation
 - General Electric
 - Motorola
 - Microsoft
 - ABB
 - Qualcomm
 - NASA
 - Many others

MSEE Degree Requirements

Dr. Ana Stankovic
Department of Electrical Engineering and Computer
Science

Thesis Option

- A minimum of **30 total credit hours**, including at least six credit hours of thesis, and **at least two 600-level EECS courses**.
- Successful completion and defense of a **thesis**. A graduate committee guides the thesis work.
- Thesis students must give an oral presentation of the thesis.

Non-thesis Option

- A minimum of **32 total credit hours**, including **at least three 600-level EECS courses**.

All Students

- Students must take at least **four** course subjects from their area of specialization, including its core course(s).
- Areas of specialization and their core courses:
 - **Communication** engineering (EEC 512 and 651)
 - **Control** engineering (EEC 510)
 - **Power systems and power electronics** engineering (EEC 571 and 574)
 - **Computer** engineering (EEC 581 and EEC 584)

Communication Engineering

■ Core Courses

- EEC 512 Probability and Stochastic Processes
- EEC 651 Digital Communications

■ Electives

- EEC 530 Digital Signal Processing
- EEC 650 Signal Detection and Estimation
- EEC 652 Error Control Coding
- EEC 653 Information Theory
- EEC 654 Mobile Communications
- EEC 655 Satellite Communications
- EEC 693 Special Topics (as appropriate)

Control Engineering

- Core Course

- EEC 510 Linear Systems

- Electives

- EEC 512 Probability and Stochastic Processes
- EEC 517 Embedded Systems
- EEC 542 The Art and Science of Feedback Control
- EEC 640 Advanced Control System Design
- EEC 641 Multivariable Control
- EEC 642 System Identification
- EEC 643 Nonlinear Systems
- EEC 644 Optimal Control Systems
- EEC 645 Intelligent Control Systems
- EEC 646 Dynamics and Controls of MEMS
- EEC 693 Special Topics (as appropriate)

Power Systems and Power Electronics

■ Core Courses

- EEC 573 Power Systems
- EEC 574 Power Electronics II

■ Electives

- EEC 510 Linear Systems
- EEC 640 Advanced Control System Design
- EEC 641 Multivariable Control
- EEC 643 Nonlinear Systems
- EEC 644 Optimal Control Systems
- EEC 670 Power Systems Operation
- EEC 671 Power Systems Control
- EEC 673 Power Electronics & Electric Machines
- EEC 693 Special Topics (as appropriate)

Computer Engineering

■ Core Courses

- EEC 581 Computer Architecture
- EEC 584 Computer Networks

■ Electives

- EEC 517 Embedded Systems
- EEC 580 Modern Digital Design
- EEC 587 Rapid Digital System Prototyping
- EEC 680 High Performance Computer Architecture
- EEC 681 Distributed Computing Systems
- EEC 683 Computer Networks II
- EEC 684 Parallel Processing Systems
- EEC 685 Modeling and Perf. Eval. of Computer Systems
- EEC 686 Advanced Digital Design
- EEC 687 Mobile Computing
- EEC 688 Secure and Dependable Computing
- EEC 693 Special Topics (as appropriate)

All Students

- Within the first four weeks of the first semester of his or her MSEE program of study, each student must submit a **plan of study** that requires the approval of the advisor.

1. Formally admitted to Program:

Semester _____

Year _____

2. Area of Specialization:

Academic Actions and Exceptions

Academic Warning and Dismissal

Optional dismissal from, or continued participation with academic warning in a graduate degree, certificate, or licensure program, are recommended by the graduate committee of the program.

Optional Dismissal

If, in 400- to 800-level courses, a student receives:

- a. one grade of F, or
- b. two grades of less than B, or
- c. two grades of NS,

then the individual MUST be reviewed by the Graduate Program Committee to determine his or her ability to continue in graduate school. If the Graduate Program Committee determines that dismissal is in order, this recommendation is made to the Dean of the College of Graduate Studies for review and notification of the student.

Academic Warning

If it is determined that the student may continue in the graduate program, the Graduate Program Committee will notify the Dean of the College of Graduate Studies and the student, in writing, regarding the grounds under which continuation is possible. In addition, an "Academic Warning" notice will be recorded on the student's official grade report for that semester.

Mandatory Dismissal

If, in 400- to 800-level courses, a student receives:

- a. two F grades, or
- b. accumulates a total of nine credit hours of B- or less grades and has a cumulative grade-point average below 3.0,

then the student will be dismissed automatically from the program by the Dean of the College of Graduate Studies.

Re-Admission

An academically dismissed student who is readmitted to the same graduate program, or enters a different graduate program, will again be dismissed by the College of Graduate

Academic Regulations

- Optional Dismissal
 - One grade of F, or
 - Two grades of less than B
- Automatic Dismissal
 - Two F grades, or
 - Nine credit hours below B and a GPA below 3.0

Curricular Practical Training(CPT)

All students who are interested in doing CPT or OPT have to attend a practical training workshop conducted by International Students Advisor. All application materials will be given out at the workshop. For more information on CPT and OPT workshops [click here](#).

Click here to go to [CPT FAQ](#)

Basic eligibility

1. You must be in lawful F-1 status
2. You must have been a full time student for at least one academic year
3. The proposed employment must be an integral part of your studies.

What is Curricular Practical Training?

DHS defines Curricular Practical Training as employment that is an integral or important part of your curriculum. This may be an internship, an independent study, a thesis, or required practicum. You must receive academic credit for the work experience during the same semester that you are applying for CPT. Permission is granted by the International Student Advisor (ISA) and then reported to the DHS in the SEVIS system.

1. If a student uses all 12 months of CPT, he/she will not be permitted to apply for Optional Practical Training (OPT).
2. The DHS defines full-time employment as work more than 20 hours per week.
3. Registered full-time students may not exceed 20 hours of employment per week.
4. It is possible to work full-time if you are not registered as a full-time student. This should occur only in summer semester or near the end of your program of study.
5. Curricular Practical Training is not designed for permanent or long-term work opportunities.
6. The work period should be as close to the beginning and ending dates of the semester as possible
7. An incomplete does NOT allow you to continue to work or to work between semesters.

How to apply?

EEC 602/802

Electrical Engineering Internship

Course description (1-0-1)

Prerequisites: Graduate standing, completion of at least one full time academic year in MSEE, MSSE, or Doctor of Engineering program, and permission of advisor.

Provides students with practical experience in electrical, computer or software engineering. Students will write progress reports on a regular basis in addition to writing a project report at the end of the course. May be taken up to two times for credit. Pass/fail.

- Must obtain a job offer in writing from employer
- 12 months maximum on CPT (only full-time employment counts). Students who use all 12 months of CPT can't do OPT.

Optional Practical Training(OPT)

All students who are interested in doing CPT or OPT have to attend a practical training workshop conducted by International Students Advisor.

For workshop schedule [click here](#). For [OPT FAQ](#) click here.

F-1 international students who have maintained their status and have completed one academic year of study in the U.S. may be eligible for Optional Practical Training (OPT).

Approval for OPT is recommended by the International Student Advisor (ISA) and granted by the U.S. Citizenship and Immigration Services (USCIS) in the form of an Employment Authorization Document (EAD). The USCIS may take 60 to 90 days to process your application. Once you receive an EAD from the USCIS, it is impossible to revoke it. You cannot work while you are waiting for the EAD to arrive.

What is Optional Practical Training?

Optional Practical Training is temporary employment related to the area of study indicated on your I-20. You may use your OPT time during your course of study or after the completion of your studies. You are allowed a maximum of 12 months during your entire academic career in the US.

Part time employment is 20 hours per week or less. Full time employment is 21 hours or more per week. You may apply to use your OPT time as you wish during your academic career in the US per the following guidelines:

1. While school is in session (part-time only)
2. During vacation (part-time or full-time)
3. After completion of all course work but before completion of thesis or dissertation (part-time or full-time)
4. After completion of your studies (full-time ONLY)

To apply for OPT that will be used before completion of your studies

Practical Training Workshop Schedule

All students who are interested in doing CPT or OPT have to attend a practical training workshop conducted by International Students Advisor. For more information on CPT and OPT [click here](#).
